Advice No. 6578-G
(U 904-G)

Public Utilities Commission of the State of California

Subject: January 1, 2026 Consolidated Rate Update

Southern California Gas Company (SoCalGas) hereby submits for approval by the California Public Utilities Commission (Commission or CPUC) revisions to its tariff schedules, applicable throughout its service territory, as shown in Attachment A.

Purpose

This submittal consolidates SoCalGas's rate adjustments authorized by the Commission pursuant to relevant decisions and advice letters effective January 1, 2026.

Information

This advice letter implements the rate adjustments requested by compliance Advice No. (AL) 6548-G-A, (AL) 6548-G-B and Decision (D.) 24-07-009, Annual Regulatory Account Balance Update; (Decision (D.) 25-12-043 Cost of Capital; Decision (D.) 23-05-006, Low Income Customer Assistance Program Concurrent Application System (CAS); Resolution G-3605, Leak Abatement (2025); (AL) 6541-G Low-Carbon Fuel Standard (LCFS) Program Annual Credit and Revenue Estimates (2026).

Annual Regulatory Account Balance Update - AL 6548-G-A and AL 6548-G-B

Advice Letter 6548-G-A, approved on December 16, 2025, proposed implementing the annual update of regulatory account balances for amortization in 2026 rates. The advice letter complied with the longstanding practice of updating SoCalGas' revenue requirement for projected year-end regulatory account balances, as authorized in D.24-07-009, SoCalGas' most recent Cost Allocation Proceeding (CAP).

AL 6548-G-A proposed a \$154.7 million decrease in SoCalGas' transportation revenue requirement for core customers and a \$32.6 million increase in SoCalGas' transportation revenue requirement for noncore customers, resulting in a total decrease

of \$122.1 million (with Franchise Fees & Uncollectibles (FF&U)). In addition, AL 6548-G-A proposed an increase in the revenue requirement for Backbone Transportation Service (BTS) of \$219.6 million (with FF&U).

Moreover, AL 6548-G-A revised SoCalGas' revenue requirement for Company-Use (CU) Fuel and Unaccounted For (UAF) Gas costs. For 2026, SoCalGas forecasted an average gas price of \$5.12/MMBtu, an increase of \$0.52/MMBtu from the \$4.60/MMBtu currently in rates, resulting in an increase in the authorized costs for CU Fuel and UAF Gas of \$4.1 million (with FF&U) compared to the present revenue requirement.

Pursuant to Ordering Paragraph (OP) 9 of D.24-12-074, the Post-Test Year 2026 revenue requirement adopted in D.24-12-074 provides a gas base margin revenue requirement of \$3,900 million, without FF&U and net of miscellaneous revenue, cost of capital adjustment, and uncollectible rate update per OP 9 (as modified by D.25-07-008). This results in an increase of \$118.9 million (with FF&U) after system integration.

In addition, AL 6548-G-A requested to include the 2026 Greenhouse Gas (GHG) revenue requirement, resulting in a decrease of \$247.3 million (with FF&U) compared to the present revenue requirement.

AL 6548-G-A also requested revenue requirements' decrease attributable to the 2017 PSEP Forecast Application of \$1.2 million without FF&U and prior to System Integration.

AL 6548-G-B is a partial supplemental to include the return to ratepayers of interest accrued in the GHGBA Biomass Project Fund subaccount, complying with Ordering Paragraph (OP) 3 of D.24-12-032. The filing revised Table 7 on page 8 and Attachment H, Table C to update the 2026 California Climate Credit in AL 6548-G-A.-

Cost of Capital Mechanism CCM Adjustment - D. 25-12-043

Per the Cost of Capital D.25-12-043, SoCalGas' rate of return is 7.52%. This results in a \$4.8 million decrease (with FF&U).

Low Income Customer Assistance Program Concurrent Application System (CAS) Balancing Account - D.23-05-006

According to the CAS D. 23-05-006, SoCalGas is granted recovery of the Low Income Customer Assistance Program Concurrent Application System (CAS) Balancing Account of \$3.5 million (with FF&U). As stated in D.23-05-006, page 32, 4 (c), "gas costs may be recovered through transportation rates from all customers on an equal cents per therm basis."

D.25-07-009 – 2026 Catastrophic Event Memorandum Account (CEMA) Revenue Requirement

The 2026 Catastrophic Event Memorandum Account (CEMA) on-going capital revenue requirement authorized in D.25-07-009 and included in rates is \$0.524 million (with FF&U).

Resolution G-3605 - Leak Abatement 2026 Revenue Requirement

Pursuant to Resolution G-3605, the Leak Abatement 2026 Revenue Requirement \$73.9 million (with FF&U). This is a decrease of \$2.4 million compared to current rates.

Low-Carbon Fuel Standard (LCFS) Program Annual Credit and Revenue Estimates (2026) - AL 6541-G

Pursuant to AL 6541-G¹, the 2026 natural gas vehicle (NGV) rates reflect the return of credit for the LCFS program, a credit of \$0.52005/therm (with FF&U²).

Tariff On-Bill Memorandum Account (TOBMA)

Pursuant to D.25-12-021³, SoCalGas is authorized to amortize the \$113K under-collected balance in its TOBMA as of December 2025.

Other SoCalGas 2026 Revenue Requirement Adjustments

The 2026 SoCalGas revenue requirement also include the following adjustments to ensure common rates⁴ between SoCalGas and SDG&E for certain gas customer classes: an increase of \$1.947 million to ensure common Electric Generation rates, a decrease of \$1.258 million to ensure common NGV rates and an increase of \$5.67 million to ensure common Transmission Level Service (TLS) rates. All 2026 rate changes are submitted to be effective concurrently with SDG&E's 2026 consolidated gas transportation rates.

There is a correction to Exchange costs of \$1.4 million.

In addition, SoCalGas' revenue requirement includes adjustments for SoCalGas and SDG&E's transmission system integration mechanism whereby SDG&E pays a share of the integrated local transmission system costs. An additional System Integration adjustment to SoCalGas' 2025 PSEP base margin revenue requirement includes an allocation of SDG&E's \$4.5 million of PSEP backbone transmission balancing accounts costs to SoCalGas Backbone Transportation service.

Included with this submittal are a combined summary of Natural Gas Transportation Rate Revenues (Attachment B) and a table that summarizes the above-mentioned components of the change in revenue requirement (Attachment C).

¹ Approved by the Commission on October 30, 2025.

² Updated with FF&U factor. Advice No. 6553-G, 2026 Uncollectible factor is 0.893%.

³ Approved by the Commission on December 18, 2025.

⁴ Prior to applying company-specific FF&U and other rate adders.

2025 Consolidated Revenue Requirement Impact by Class of Service

| <u>Class of Service</u> | <u>Applicable Rate Schedules</u> | <u>Net M\$ (with FF&U Increase/(Decrease)</u> | |
|---------------------------------------|--------------------------------------------------------------------|---------------------------------------------------|--|
| Core | GR, GS, GM, GO-AC, G-NGVR, GL, G-10, G-AC, G-EN, G-NGV | (\$232.8) | |
| Noncore | GT-NC, GT-TLS..... | (\$8.9) | |
| Unbundled Storage | G-TBS..... | \$0.0 | |
| Backbone Transportation Service (BTS) | G-BTS | \$224.3 | |
| <hr/> | | <hr/> | |
| TOTAL | | (\$17.4) | |

Protest

Anyone may protest this Advice Letter to the Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be submitted electronically and must be received within 20 days after the date of this Advice Letter, which is January 18, 2026. Protests should be submitted to the attention of the Energy Division Tariff Unit at:

E-mail: EDTariffUnit@cpuc.ca.gov

In addition, protests and all other correspondence regarding this Advice Letter should also be sent electronically to the attention of:

Attn: Veronica Arroyo
Regulatory Tariff Manager
E-mail: VGarcia2@socalgas.com
E-mail: Tariffs@socalgas.com

Effective Date

SoCalGas believes this advice letter is subject to Energy Division disposition and should be classified as Tier 1 (effective pending disposition) pursuant to General Order (GO) 96-B. Therefore, SoCalGas respectfully requests that this advice letter become effective for service on and after January 1, 2026.

Notice

A copy of this advice letter is being sent to SoCalGas' GO 96-B service list and the Commission's service lists in A.08-09-023, A.14-11-004, A.15-07-014, and A.17-10-008. Address change requests to the GO 96-B service list should be directed via e-mail to Tariffs@socalgas.com or call 213-244-2424.

For changes to all other service lists, please contact the Commission's Process Office at 415-703-2021 or via e-mail to [Process Office@cpuc.ca.gov](mailto:Process_Office@cpuc.ca.gov).

PRELIMINARY STATEMENT

PART III

COST ALLOCATION AND REVENUE REQUIREMENT

Sheet 1

A. TRIENNIAL COST ALLOCATION PROCEEDING:

1. In a Triennial Cost Allocation Proceeding (TCAP), the Utility shall file and the Commission shall authorize an allocation of the Utility's revenue requirement and reallocation of balancing account balances among customer classes, the rates for core customers and the rates for noncore customers.
2. Other decisions by the Commission may require rate revisions at times other than those specified herein.

B. REVENUE REQUIREMENT:

The Utility's revenue requirement consists of the sum total of all estimated costs to provide service for the forecast period. Rates will be established to recover all items in the Revenue Requirement. The components of the revenue requirement are as follows:

1. GAS MARGIN

This amount shall be the total annual base revenues authorized by the Commission. The authorized gas margin pursuant to SoCalGas Advice No. 6578-G, effective January 1, 2026, is \$3,981,140,000. Of the total revenues, \$3,199,719,000 is allocated to the core market, \$666,543,000 is allocated to the noncore market, and \$114,878,000 to the Backbone Transportation Service.

2. REGULATORY ACCOUNTS

Included below are the major balancing accounts. For a complete listing of all regulatory accounts, please refer to Preliminary Statement, Parts V, VI, and VII.

SoCalGas is authorized to submit an annual advice letter on October 15 to update SoCalGas' applicable regulatory accounts for recovery in rates. The purpose is to amortize the projected year-end balances or applicable revenue requirements in rates January 1 of the following year. Decision (D.) 24-07-009, SoCalGas' 2024 TCAP, authorizes this annual advice letter submittal.

Sheet 8

G. CORE PRICING FLEXIBILITY (Continued)

2. Class Average Long Run Marginal Cost (LRMC) Floor Rates (Continued)

b. The following table lists the full transportation rates authorized by D.14-06-007, and the class average LRMC floor rates authorized by D.98-01-040. LRMC Floor Rates were updated with new values established in D.00-04-060, D.01-12-018, and SoCalGas Advice No. 4053, effective January 1, 2010. Full Transportation Rates are updated with new values established in Advice No. 6578-G effective January 1, 2026. The floor rates represent the lowest possible average annual rate by class under which SoCalGas can serve gas. These rates represent a starting point for the program and, pursuant to Commission order, may be modified in future rate proceedings.

| <u>Class</u> | <u>Full Transportation Rate</u> | <u>LRMC Floor Rate</u> |
|------------------|---------------------------------|------------------------|
| Residential | 142.2 cents/therm | 23.3 cents/therm |
| G-10, 0 to 3 Mth | 168.7 cents/therm | 36.2 cents/therm |
| G-10, 3-50 Mth | 92.7 cents/therm | 10.8 cents/therm |
| G-10, 50-250 Mth | 48.7 cents/therm | 6.5 cents/therm |
| G-10, >250Mth | 43.2 cents/therm | 4.2 cents/therm |
| Gas A/C | 67.5 cents/therm | 5.7 cents/therm |
| Gas Engines | 22.8 cents/therm | 4.9 cents/therm |
| NGV | 37.7 cents/therm | 3.7 cents/therm |

Optional tariffs or negotiated rate contracts that would result in average annual rates below class average LRMC will be subject to Commission approval through the Expedited Application Docket (EAD) process.

With prior Commission approval under the EAD process, SoCalGas may discount average annual rates to a floor of customer-specific LRMC that includes the full interstate pipeline reservation charges allocated to core customers.

Types of Customers and Contracts

Optional tariffs and negotiated rates are applicable to new or existing customers for the purpose of load growth or load retention.

New Customers

A new customer is defined as a new meter measuring volumes not previously served, or a reconnected meter measuring load that has been off the system for at least 12 months.

Schedule No. GR
RESIDENTIAL SERVICE
(Includes GR, GR-C and GT-R Rates)

Sheet 1

APPLICABILITY

The GR rate is applicable to natural gas procurement service to individually metered residential customers.

The GR-C, cross-over rate, is a core procurement option for individually metered residential core transportation customers with annual consumption over 50,000 therms, as set forth in Special Condition 10.

The GT-R rate is applicable to Core Aggregation Transportation (CAT) service to individually metered residential customers, as set forth in Special Condition 11.

The California Alternate Rates for Energy (CARE) discount of 20%, reflected as a separate line item on the bill, is applicable to income-qualified households that meet the requirements for the CARE program as set forth in Schedule No. G-CARE.

TERRITORY

Applicable throughout the service territory.

RATES (Continued)

Cap-and-Trade Cost Exemption (11.744¢)/therm R

The Cap-and-Trade Cost Exemption is applicable to customers who are identified by the California Air Resources Board (CARB) as being Covered Entities for their Greenhouse Gas (GHG) emissions as part of the Cap-and-Trade program. A customer who is supplying fuel to a facility on behalf of the owner (e.g., tolling arrangement) of a facility that has been identified by CARB as a Covered Entity, may receive the Cap-and-Trade Cost Exemption if so authorized by the facility owner and agreed to by the Utility. Applicable Cap-and-Trade Cost Exemptions may be provided from the date CARB identifies a customer as being a Covered Entity or provided based upon documentation satisfactory to the Utility for the time period for which the customer was a Covered Entity, whichever is earlier.

Minimum Charge

The Minimum Charge shall be the applicable monthly Customer Charge.

Additional Charges

Rates may be adjusted to reflect any applicable taxes, franchise fees or other fees, regulatory surcharges, and interstate or intrastate pipeline charges that may occur.

SPECIAL CONDITIONS

1. **Definitions:** The definitions of principal terms used in this schedule are found either herein or in Rule No. 1, Definitions.
2. **Number of Therms:** The number of therms to be billed shall be determined in accordance with Rule No. 2.

(Footnotes continued from previous page.)

^{2/} This charge is applicable to Utility Procurement Customers and includes the G-CPR Procurement Charge as shown in Schedule No. G-CP, which is subject to change monthly, as set forth in Special Condition 7.

Submetering Credit

A daily submetering credit of 31.233¢ shall be applicable for each CARE qualified residential unit and 27.945¢ for each other qualified residential unit for customers on Schedule No. GS. However, in no instance shall the monthly bill be less than the Minimum Charge.

Minimum Charge

The Minimum Charge shall be the applicable monthly Customer Charge.

Additional Charges

Rates may be adjusted to reflect any applicable taxes, Franchise Fees or other fees, regulatory surcharges, and interstate or intrastate pipeline charges that may occur.

SPECIAL CONDITIONS

1. Definitions: The definitions of principal terms used in this schedule are found either herein or in Rule No. 1, Definitions.

(Footnotes continued from previous page.)

^{2/} This charge is applicable to Utility Procurement Customers and includes the G-CPR Procurement Charge as shown in Schedule No. G-CP, which is subject to change monthly, as set forth in Special Condition 8.

Cap-and-Trade Cost Exemption (11.744¢)/therm

The Cap-and-Trade Cost Exemption is applicable to customers who are identified by the California Air Resources Board (CARB) as being Covered Entities for their Greenhouse Gas (GHG) emissions as part of the Cap-and-Trade program. A customer who is supplying fuel to a facility on behalf of the owner (e.g., tolling arrangement) of a facility that has been identified by CARB as a Covered Entity, may receive the Cap-and-Trade Cost Exemption if so authorized by the facility owner and agreed to by the Utility. Applicable Cap-and-Trade Cost Exemptions may be provided from the date CARB identifies a customer as being a Covered Entity or provided based upon documentation satisfactory to the Utility for the time period for which the customer was a Covered Entity, whichever is earlier.

(Footnotes continued from previous page.)

^{2/} This charge is applicable to Utility Procurement Customers and includes the G-CPA Procurement Charge as shown in Schedule No. G-CPA, which is subject to change monthly, as set forth in Special Condition 7.

^{3/} These Cross-Over Rate charges will be applicable for only the first 12 months of service for residential core transportation customers who consumed over 50,000 therms: (1) in the last 12 months and who have transferred from procuring their gas commodity from an Core Transport Agent (CTA) to utility procurement unless such customer was returned to utility procurement because their gas supplier is no longer doing any business in California; and (2) who return to core procurement service for up to 90 days while deciding whether to switch to a different CTA.

SCHEDULE NO. GO-AC
OPTIONAL RATES FOR CUSTOMERS PURCHASING NEW GAS
AIR CONDITIONING EQUIPMENT (Includes GO-AC and GTO-AC Rates)

Sheet 1

APPLICABILITY

The Gas Air Conditioning (AC) optional rate program is for residential customers who 1) would normally qualify for service under Schedule No. GR, and 2) have, within 12 months prior to sign-up, purchased a newly constructed home with gas AC, installed gas AC equipment in a newly constructed home, or replaced an existing gas AC unit with a new, more efficient gas AC unit.

The GO-AC rate is applicable to natural gas procurement service for individually metered residential customers.

The GTO-AC rate is applicable to Core Aggregation Transportation (CAT) service to individually metered residential customers.

TERRITORY

Applicable throughout the service territory.

| <u>RATES</u> | <u>GO-AC</u> | <u>GTO-AC</u> | |

STREET AND OUTDOOR LIGHTING
NATURAL GAS SERVICE

Sheet 1

APPLICABILITY

Applicable to natural gas service supplied from the Utility's core portfolio, as defined in Rule No. 1, for continuous street and outdoor lighting in lighting devices approved by the Utility. Service under this schedule is conditional upon arrangements mutually satisfactory to the customer and the Utility for connection of customer's lighting devices to Utility's facilities.

The minimum term of service hereunder is one month, as described in Special Condition 2.

TERRITORY

Applicable throughout the system.

RATES

The charges are based upon the monthly non-residential procurement charge as set forth in Schedule No. G-CP; and the GN-10 class average transportation rate.

The non-residential procurement charge is determined as set forth in Schedule No. G-CP, in the manner approved by D.96-08-037, and subject to change monthly as described in Special Condition 3.

^{1/} Applicable only the first 12 months of service for non-residential core transportation customers with qualifying load who consumed over 50,000 therms in the last 12 months, unless such customer was returned to utility procurement because their gas supplier is no longer doing any business in California.

^{2/} Applicable to transportation-only service, including Core Aggregation Transportation service.

^{3/} This charge is applicable for service to Utility Procurement Customers and include the G-CPNR Procurement Charge as shown in Schedule No. G-CP, which is subject to change monthly, as set forth in Special Condition 4.

 RESOLUTION NO. G-3605

Schedule No. G-NGV
NATURAL GAS SERVICE FOR MOTOR VEHICLES
(Includes G-NGU, G-NGUC, G-NGC and GT-NGU Rates)

Sheet 2

(Continued)

RATES (Continued)

Commodity and Transmission Charges (Continued)

Utility-Funded Fueling Station

G-NGC Compression Surcharge, per therm 102.537¢

Low Carbon Fuel Standard (LCFS) Rate Credit, per therm⁴ (52.005¢)

The G-NGC Compression Surcharge will be added to the G-NGU Uncompressed rate per therm, or the G-NGUC Uncompressed rate per them as applicable, as indicated in the Customer-Funded Fueling Station section above. The resultant total compressed rate is:

G-NGU plus G-NGC and LCFS Rate Credit, compressed per therm 136.384¢

G-NGUC plus G-NGC and LCFS Rate Credit, compressed per therm ... 136.384¢

Compression of natural gas to the pressure required for its use as motor vehicle fuel will be performed by the Utility from a Utility-funded fueling station.

For billing purposes, the number of therms compressed at a Utility-funded station, will be expressed in gasoline gallon equivalents at the dispenser.

Cap-and-Trade Cost Exemption (11.744¢)/therm

The Cap-and-Trade Cost Exemption is applicable to customers who are identified by the California Air Resources Board (CARB) as being Covered Entities for their Greenhouse Gas (GHG) emissions as part of the Cap-and-Trade program. A customer who is supplying fuel to a facility on behalf of the owner (e.g. tolling arrangement) of a facility that has been identified by CARB as a Covered Entity, may receive the Cap-and-Trade Cost Exemption if so authorized by the facility owner and agreed to by the Utility. Applicable Cap-and-Trade Cost Exemptions may be provided from the date CARB identifies a customer as being a Covered Entity, or provided based upon documentation satisfactory to the Utility for the time period for which the customer was a Covered Entity, whichever is earlier.

Minimum Charge

The Minimum Charge shall be the applicable monthly Customer Charge.

4/ As set forth in Special Condition 18.

RATES (Continued)

Reservation Rate Option (Continued)

Additional Charges

Rates may be adjusted to reflect any applicable taxes, franchise or other fees or regulatory surcharges approved or directed by the CPUC.

California Air Resources Board (CARB) Fee Credit (0.334¢/therm) I

The CARB Fee Credit is applicable to Commercial/Industrial, Enhanced Oil Recovery and Electric Generation customers who are identified by CARB as being billed directly for CARB administrative fees. A customer who is supplying fuel to a facility on behalf of the owner (e.g. tolling arrangement) of a facility that has been identified by CARB as being billed directly, may receive the CARB Fee Credit if so authorized by the facility owner and agreed to by the utility. Applicable CARB Fee Credits may be provided from the date CARB identifies a customer as being direct billed, or provided based upon documentation satisfactory to the Utility for the time period for which payments were made directly to CARB, whichever is earlier.

Cap-and-Trade Cost Exemption (11.744¢/therm) R

The Cap-and-Trade Cost Exemption is applicable to customers who are identified by CARB as being Covered Entities for their Greenhouse Gas (GHG) emissions as part of the Cap-and-Trade program. A customer who is supplying fuel to a facility on behalf of the owner (e.g. tolling arrangement) of a facility that has been identified by CARB as a Covered Entity, may receive the Cap-and-Trade Cost Exemption if so authorized by the facility owner and agreed to by the Utility. Applicable Cap-and-Trade Cost Exemptions may be provided from the date CARB identifies a customer as being a Covered Entity, or provided based upon documentation satisfactory to the Utility for the time period for which the customer was a Covered Entity, whichever is earlier.

Monthly Minimum Charge

The Monthly Minimum Charge shall apply to a Bypass customer only. The Monthly Minimum Charge shall recover the Utility's actual Customer-related service costs. Customer-related service costs shall be limited to actual operations and maintenance costs of the metering equipment and other related facilities at the Customer's meter(s) that are owned and operated by the Utility necessary to deliver gas in accordance with the Utility's rules and procedures, good industry practice, and governmental regulations. The Utility shall determine actual Customer related service costs for each eligible Customer not later than 30 days following a request by the Customer and shall seek CPUC approval of the resulting Monthly Minimum Charge by Advice Letter. The approved Monthly Minimum Charge for each Customer shall apply only when the charge exceeds the total reservation and volumetric transportation charges for GT-TLS service and shall be applied in lieu of the total reservation and volumetric transportation charges.

TRANSPORTATION IMBALANCE SERVICE

Sheet 4

(Continued)

RATES (Continued)

Daily Balancing Standby Rates (Continued)

The daily balancing standby rate shall be equal to NGI's MidDay Price Alert Index for SoCal-Citygate multiplied by FF&U plus brokerage fee (i.e., [(NGI's MidDay Price Alert Index for SoCal-Citygate)*(FF&U)] + [brokerage fee]), rounded up to the next whole dollar, for each day a Stage 5 Low OFO, EFO, or curtailment is issued. Authorized FF&U will not be added to any daily balancing standby charge for the Utility Gas Procurement Department to the extent that is collected elsewhere.

SoCalGas FF&U Factors and Brokerage Fees

| | FF&U | Brokerage Fee (\$/Dth) |
|-----------|-----------|---------------------------|
| Core | 1.0215334 | 0.0305 |
| Noncore | 1.0215334 | 0.0305 |
| Wholesale | 1.012411 | 0.0305 |

Revision of Rates

The Standby Procurement Charge and the Buy-Back Rate shall be established effective the last day of each month. The Daily Balancing Standby Rate shall be established on NGI's MidDay Price Alert Index.

SPECIAL CONDITIONS

1. Definitions of the principal terms used in this rate schedule are contained in Rule No. 1.
2. Imbalances of customers other than the Utility Gas Procurement Department or ESPs will be calculated by combining all of a customer's meters served under the same order control code, not by account or individual delivery point. The order control code is used by the Utility to group those facilities identified by the customer for determining the customer's imbalances. In the case of the Utility Gas Procurement Department the applicable Daily Usage for the Utility Gas Procurement Department will be used. In the case of ESPs, their applicable Daily Contract Quantity (DCQ) will be used.
3. Immediately each month when actual meter usage information becomes available, an adjustment to the Utility Gas Procurement Department's imbalance account will be made to account for any differences between actual consumption of the core customers and the Daily Usage for the Utility Gas Procurement Department, company use and LUAF.

TRANSPORTATION CHARGE ADJUSTMENT

Sheet 1

APPLICABILITY

Applicable to gas sales and transportation services rendered under tariff rate schedules authorized by the Commission where the costs identified herein have been embedded in the rates.¹

Customers who are exempt from such costs will have a Transportation Charge Adjustment (TCA) as a separate line item on their bills. Customers exempt from these costs include customers from all customer classes who participate in the California Alternate Rates for Energy program and customers who are exempt from taxing under the United States Constitution or California Constitution, as referenced in Section 896 of the Public Utilities Code.

TERRITORY

This schedule is applicable within the entire territory served by Utility.

RATES

Total TCA,² per therm: (0.000¢) R

SPECIAL CONDITIONS

1. Adjustments Included in the TCA

a. California Solar Initiative Thermal Program (CSI-TP) - Decision (D.)10-01-022 established the CSI-TP to promote the installation of Solar Water Heating systems in the territories of Pacific Gas & Electric Company, Southern California Edison Company, San Diego Gas & Electric Company, and Southern California Gas Company (SoCalGas). The CSI-TP is effective through December 31, 2017, and SoCalGas will begin recovering the CSI-TP surcharge on January 1, 2012. The CSI-TP surcharge credit adjustment was revised, per Advice No. 6071, effective January 1, 2023.

CSI-TP Surcharge Credit Adjustment, per therm: (0.000¢) R

¹ The Transportation Charge Adjustment is not applicable to Electronic Generation, Enhanced Oil Recovery, and Wholesale or Backbone Transportation service since the costs described herein are not embedded in those rates.

² See Special Condition 1 for a description of each individual adjustment included in the TCA.

Schedule No. G-CCC
GREENHOUSE GAS CALIFORNIA CLIMATE CREDIT

Sheet 1

APPLICABILITY

This schedule is applicable, in combination with the customer's otherwise applicable rate schedule, to Residential customers.

TERRITORY

This schedule is applicable within the entire territory served by the Utility.

RATES

Pursuant to Commission Decision (D.) 15-10-032:

1) Residential Annual California Climate Credit

Eligible residential accounts receive a California (CA) Climate Credit, if applicable, each April 1st. The credit will display on the customer's bill on the next scheduled bill date. Master-metered rate schedules GM and GS receive one credit per sub-unit. Credits are issued to all active accounts receiving natural gas service on the date the credit is given. One credit will be given per household, so accounts with more than one service point receive only one credit. The discount for customers qualifying for California Alternate Rates for Energy (CARE) will be calculated before the CA Climate Credit is applied to ensure no impact to the benefits of the CARE program.

Residential Annual Credit (April 1st)..... \$36.06

R

SPECIAL CONDITIONS

1. Definitions: The definitions of principal terms used in this schedule are found either herein or in Rule No. 1, Definitions.
2. General Description. The CA Climate Credit is shown on a customer's bill as a separate line item. The credit is authorized to return to ratepayers the proceeds derived from the Utility's sale of directly allocated Greenhouse Gas (GHG) allowances in compliance with the California Cap on GHG Emissions and Market-Based Compliance mechanisms (Cap-and-Trade Program) regulations imposed by the California Air Resources Board (CARB).
3. Filing Requirements. Pursuant to D.15-10-032, the Utility shall include proposed credit rates as part of the annual regulatory account update advice letter filing.
4. Master-Metered Customers. Customers receiving service under this schedule shall comply with the provisions of Public Utilities Code 739.5 in providing service to their sub-metered tenants.
5. 2023 CA Climate Credit. Pursuant to D.23-02-014 accelerating disbursement of the 2023 Credit, eligible residential accounts shall begin to receive the 2023 Credit on February 3, 2023.

| 45 | Total Throughput w/EOR Mth/yr | 8,461,949 | | | 8,461,949 | | | | 14.7% |

1) These rates are for Natural Gas Transportation Service from "Citygate to Meter." The Backbone Transportation Service (BTS) rate is for service from Receipt Point to Citygate.

2) These Transmission Level Service (TLS) amounts represent the average transmission rate, see Table 7 for detailed list of TLS rates.

3) BTS charge (\$/dth/day) is proposed as a separate rate. Core will pay through procurement rate, noncore as a separate charge. Charge is for both core and noncore customers

4) Unbundled Storage costs are not part of the Core Storage or Load Balancing functions (those are included in transport rates).

5) All rates include Franchise Fees & Uncollectible charges.

Advice No. 6578-G
