ANNUAL REPORT OF SYSTEM
RELIABILITY ISSUES

REQUESTS FOR ADDITIONAL
SUPPLIES TO MEET THE MINIMUM
FLOW REQUIREMENTS

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 30,000 DTH

Flow Date(s) Requested: May 8, 2025

Time of Request: 7:55 PM May 7, 2025

Reason for Request: Southern System scheduled quantities are expected to be 30,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 12,000 DTH

Flow Date(s) Requested: May 30, 2025

Time of Request: 8:45 PM May 29, 2025

Reason for Request: Southern System scheduled quantities are expected to be 12,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 56,000 DTH

Flow Date(s) Requested: Aug 06, 2025

Time of Request: 7:45 PM Aug 5, 2025

Reason for Request: Southern System scheduled quantities are expected to be 56,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 45,000 DTH

Flow Date(s) Requested: Aug 07, 2025

Time of Request: 7:50 PM Aug 6, 2025

Reason for Request: Southern System scheduled quantities are expected to be 45,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 82,000 DTH

Flow Date(s) Requested: Aug 07, 2025

Time of Request: 11:30 AM Aug 7, 2025

Reason for Request: Southern System scheduled quantities are expected to be 82,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 129,000 DTH

Flow Date(s) Requested: Aug 8, 2025

Time of Request: 7:40 PM Aug 7, 2025

Reason for Request: Southern System scheduled quantities are expected to be 129,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 64,000 DTH

Flow Date(s) Requested: August 19, 2025

Time of Request: 7:45 PM August 18, 2025

Reason for Request: Southern System scheduled quantities are expected to be 64,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 119,000 DTH

Flow Date(s) Requested: August 20, 2025

Time of Request: 7:35 PM August 19, 2025

Reason for Request: Southern System scheduled quantities are expected to be 119,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 33,000 DTH

Flow Date(s) Requested: August 20, 2025

Time of Request: 12:10 PM August 20, 2025

Reason for Request: Southern System scheduled quantities are expected to be 33,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 341,000 DTH

Flow Date(s) Requested: August 21, 2025

Time of Request: 8:35 PM August 20, 2025

Reason for Request: Southern System scheduled quantities are expected to be 341,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 338,000 DTH

Flow Date(s) Requested: August 22, 2025

Time of Request: 7:35 PM August 21, 2025

Reason for Request: Southern System scheduled quantities are expected to be 338,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 90,000 DTH

Flow Date(s) Requested: August 23, 2025

Time of Request: 7:35 PM August 22, 2025

Reason for Request: Southern System scheduled quantities are expected to be 90,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 258,000 DTH

Flow Date(s) Requested: August 23, 2025

Time of Request: 11:45 AM August 22, 2025

Reason for Request: Southern System scheduled quantities are expected to be 258,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 258,000 DTH

Flow Date(s) Requested: August 24, 2025

Time of Request: 11:45 AM August 22, 2025

Reason for Request: Southern System scheduled quantities are expected to be 258,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 183,000 DTH

Flow Date(s) Requested: August 25, 2025

Time of Request: 07:45 PM August 24, 2025

Reason for Request: Southern System scheduled quantities are expected to be 183,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 18,000 DTH

Flow Date(s) Requested: August 25, 2025

Time of Request: 11:45 AM August 25, 2025

Reason for Request: Southern System scheduled quantities are expected to be 18,000 DTH below the minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 47,000 DTH

Flow Date(s) Requested: August 26, 2025

Time of Request: 08:10 PM August 25, 2025

Reason for Request: Southern System scheduled quantities are expected to be 47,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 105,000 DTH

Flow Date(s) Requested: September 3, 2025

Time of Request: 7:50 PM September 2, 2025

Reason for Request: Southern System scheduled quantities are expected to be 105,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 123,000 DTH

Flow Date(s) Requested: September 3, 2025

Time of Request: 11:55 AM September 3, 2025

Reason for Request: Southern System scheduled quantities are expected to be 123,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 150,000 DTH

Flow Date(s) Requested: September 4, 2025

Time of Request: 7:50 PM September 3, 2025

Reason for Request: Southern System scheduled quantities are expected to be 150,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 52,000 DTH

Flow Date(s) Requested: September 4, 2025

Time of Request: 11:35 AM September 4, 2025

Reason for Request: Southern System scheduled quantities are expected to be 52,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 50,000 DTH

Flow Date(s) Requested: September 5, 2025

Time of Request: 7:45 PM September 4, 2025

Reason for Request: Southern System scheduled quantities are expected to be 50,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 51,000 DTH

Flow Date(s) Requested: January 24, 2026

Time of Request: 1:15 PM January 23, 2026

Reason for Request: Southern System scheduled quantities are expected to be 51,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 51,000 DTH

Flow Date(s) Requested: January 25, 2026

Time of Request: 1:15 PM January 23, 2026

Reason for Request: Southern System scheduled quantities are expected to be 51,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 51,000 DTH

Flow Date(s) Requested: January 26, 2026

Time of Request: 1:15 PM January 23, 2026

Reason for Request: Southern System scheduled quantities are expected to be 51,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 16,000 DTH

Flow Date(s) Requested: January 24, 2026

Time of Request: 12:25 PM January 24, 2026

Reason for Request: Southern System scheduled quantities are expected to be 16,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 114,000 DTH

Flow Date(s) Requested: January 26, 2026

Time of Request: 7:15 PM January 25, 2026

Reason for Request: Southern System scheduled quantities are expected to be 114,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 137,000 DTH

Flow Date(s) Requested: January 27, 2026

Time of Request: 7:15 PM January 26, 2026

Reason for Request: Southern System scheduled quantities are expected to be 137,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 55,000 DTH

Flow Date(s) Requested: January 28, 2026

Time of Request: 7:15 PM January 27, 2026

Reason for Request: Southern System scheduled quantities are expected to be 55,000 DTH below the southern system minimum flowing supply requirement.
